FOR IMMEDIATE RELEASE

**SDI REPORTS: AS SWINE FLU FEARS DIMINISH, PRESCRIPTIONS FOR ANTIVIRALS
DROP 59%**

PLYMOUTH MEETING, Pa. – May 12, 2009 – SDI's Vector One®: National shows that for the week ending May 8, the number of new antiviral prescriptions dispensed at retail pharmacies was 118,578 — a 59% drop compared to approximately 277,000 new prescriptions the week before. Tamiflu accounted for 90% of the market's new prescriptions last week.

About SDI

Since 1982, SDI has been delivering innovative healthcare data products and analytic services to the pharmaceutical, biotech, healthcare, medical device, financial services, and consumer packaged goods industries. SDI is the leading provider of de-identified patient-level data analytics and offers a broad array of solutions and insights across the continuum of care. These include custom and syndicated patient-level data studies; localized disease and treatment surveillance and projection; market research audits; healthcare profiles; comprehensive managed care offerings; clinical trial optimization; direct-to-patient pharmacy programs; marketing effectiveness; sales targeting and compensation products; data integration, warehousing, and mining; list services; and direct marketing services. Its current roster includes the top 50 pharmaceutical/biotech companies. For more information, visit www.sdihealth.com or call 610.834.0800.
